

Table No. Pacific R. R.  
 (Baltimore & Southern Branch.)  
 Commencing Sunday, May 10th, and  
 further notice, trains will leave  
 as follows:

GOING NORTH.	
1st—Texas Express.....	4:52 A.M.
2nd—K. C. Express.....	7:15 P.M.
3rd—Accommodation.....	1:30 P.M.
GOING SOUTH.	
1st—Texas Express.....	9:14 P.M.
2nd—K. C. Express.....	8:15 A.M.
3rd—Accommodation.....	9:55 A.M.

Passenger trains make direct con-  
 nections for St. Louis and all points east  
 and all points south, Colorado,  
 and all points west and north-  
 west and other information  
 I. Lisk, Agent.

## MONEY!!

Parties wanting to borrow money on Farms  
 remember  
 1st. That we can lend money cheaper than  
 anybody.  
 2nd. In any sum from \$100 to \$10,000, and on  
 time from six months to five years.  
 3rd. Interest and Principal can be made pay-  
 able at any day and interest stopped.  
 4th. Have almost a million dollars already  
 loaned and doing a larger business than ever.  
 5th. We keep money on hand to loan so if you  
 have good security and clear titles you don't  
 have to wait.  
 6th. We have two sets of Abstract books made  
 by different parties and make Abstract of Titles  
 by one set and compare with the other and can  
 thus make Abstract of titles that are absolutely  
 correct and we will stand responsible for them.  
 7th. Have been here a long time and expect  
 to stay a while longer.  
 8th. Make loans with or without Commission.  
 9th. Invite you to come and see us and have  
 our terms, rates and etc. explained to you before  
 making application elsewhere.  
 10th Our office is with the Butler National  
 Bank, Opera House Block, Butler, Mo.

## MISSING LINKS.

Baltimore people read by gas that  
 costs only 50 cents per thousand feet.

Lead pipes are said not to be affected  
 by water if kept constantly filled. If  
 alternately filled and emptied the pipes  
 are readily affected.

Judge Tourgee has for the subject of  
 his lecture this winter, "Give Us a  
 Rest." The title is exceedingly popular  
 with most lecture audiences.

The exclusive right of selling opium  
 on the Isthmus of Panama has been pur-  
 chased by a Chinaman for \$16,000. The  
 government will use the money in re-  
 ducing the national debt.

There is one post-office to every 633  
 people in Canada, and the Dominion  
 has more post-offices to the same num-  
 ber of people than any other country in  
 the world. In this republic there is one  
 post-office to every 1,092 inhabitants.

William Weightman, of Philadelphia,  
 is considered a tolerably wealthy man  
 financially. He is one of the heads of  
 the great mining concern of that city,  
 and has shunk about \$20,000,000 out of  
 the people.

Cornell university will confer no hon-  
 orary degrees hereafter, and to become  
 a doctor of laws under the new rules of  
 that institution it will be necessary for  
 a man to tell who Blackstone and Chit-  
 ty were and what Kent and Stevens  
 wrote.

It is said that the lazy Sultan of Mo-  
 rocco has the most luxurious tricycle in  
 the world. He sits cross-legged upon  
 an embossed couch, curtained and  
 canopied with silk and silver and gold,  
 while the machine is being propelled by  
 slave labor.

Admiral Porter proposes to write an-  
 other book as soon as his health has  
 grown better. He received \$30,000  
 bonus for his naval history and gets a  
 royalty of 20 per cent on all the books  
 sold. This far he has received about  
 \$50,000 in all.

Allen Thorndike Rice, editor of the  
 North American Review, is a brunette.  
 He wears small, black side-whiskers, is  
 of medium height, has a frank, open  
 expression and very expressive eyes. He  
 always dresses neatly and is very pleas-  
 ant and quiet in his manners.

In Harrisburg, Pa., recently, a 2-year-  
 old child got hold of a bottle of whisky  
 and drank two ounces. It then fell in-  
 to a drunken stupor, and its life was  
 saved with difficulty. It came out of  
 the stupor with every indication of hav-  
 ing a tremendous head, and demanded  
 water continuously.

The fence law of Georgia, which has  
 had the effect of keeping hogs from  
 roaming unrestrained through the  
 woods, has also had the effect of greatly  
 increasing the number of skunks in the  
 state. Hogs are particularly fond of  
 young skunks, and devoured many of  
 them when the woods were open to  
 stock.

A resident of Danbury, Ct., touched  
 his finger recently to a well-charged  
 electric wire, "just for the fun of the  
 thing," and was instantly knocked  
 down, and didn't recover for several  
 hours. He was considerably frightened,  
 and more so when told that if he had  
 grasped the wire he would have been  
 killed.

German steamers and sailing vessels  
 are crowding out their British competi-  
 tors on the Chinese coast. German  
 masters and sailors are willing to work  
 for much less pay than British seamen  
 of the same class, while their steam  
 vessels are so fitted as to be run very  
 cheaply. The consequence is that they  
 are taking the coastwise and foreign  
 trade.

A titled foreigner complains that  
 Americans do not understand the meth-  
 od of address to lords. Some call one  
 of these importations plain "Mr.,"  
 others say "Your highness," and others  
 "Your honor." "Your lordship" and  
 "My lord" are common means of ad-  
 dress. But there are others, among the  
 most sensible people, who say "Yes,  
 sir," or "I am glad to know you, sir."

In Montreal, Canada, recently, a doc-  
 tor who had an account with a job  
 printer agreed to take his pay in work.  
 After he had had all the printing done  
 that he desired there still remained a  
 balance, and, as his wife was very sick,  
 he decided to have some blank funeral  
 notices struck off with her name on  
 them. He looked them in his desk, his  
 wife got well and found them, and now  
 she talks of getting a divorce.

A Picton (Canada) citizen has a bird  
 of remarkable intelligence which he has  
 taught several curious tricks. One of  
 the tricks is to strike a match and hold it  
 for the doctor to light his pipe. This  
 trick it began rehearsing in the doctor's  
 absence not long ago, dropped a match  
 on some loose paper on the floor, set the  
 woodwork of a window ablaze, and the  
 dwelling narrowly escaped destruction.  
 The bird will be sold.

What the friend of the family says:  
 "It is, indeed, a lovely child, Mrs.  
 Yungkupe." "Who does it look like?"  
 "Well, its eyes resemble yours; but its  
 mouth reminds me more of," etc., etc.  
 What he means: "Great Caesar! What  
 a pug-nosed, flat-faced little beast! It  
 looks more like one of the monkeys in  
 the park than anything else I can think  
 of.—Iuck."

Tramp—Are you the proprietor of  
 this hotel, sir? Proprietor—Yes, sir.  
 Tramp—Will you please punch me un-  
 der the ribs as hard as you can? Pro-  
 prietor—Certainly—there, how's that?  
 Tramp—That'll do. Now, what I'm  
 gettin' at is, don't you wantter hire me  
 fer a perambulating dinner-gong? That  
 holler sound would fetch people down  
 from the tenth story.—*Tud-Bits.*

A brakeman in the employ of the  
 Delaware & Hudson Canal Company is  
 a very obliging person, and thoughtful  
 withal. An excursion party which in-  
 cluded many young men and women,  
 recently made a trip from Albany to  
 Lake George, and as the train would  
 near a tunnel, of which there are a  
 good many on the line, he would call  
 out in stentorian tones, "Gents, choose  
 your partners for the tunnel."—*Life.*

## Chicago, Ft. Scott & Texas R. R.

In speaking of the Chicago, Fort  
 Scott & Texas railroad, the Macon  
 Times has the following:

This would make an admirable  
 line, and would pass through the  
 heart of Missouri, and as fine a sec-  
 tion of country as can be found any-  
 where. An almost air line from  
 Fort Scott to Alexandria would  
 strike the important towns of Butler,  
 county seat of Bates county; War-  
 rensburg, the county seat of Johnson  
 county; Brownsville or Sweet  
 Springs, Marshall, the county seat  
 of Saline county; and with a slight  
 deviation could touch Keytesville or  
 Salisbury, but would most likely  
 touch the latter place and then follow  
 the old M. & M. grade to Macon.  
 As we have said, this route would  
 be an almost air line, not varying  
 either way more perhaps than three  
 miles.

While the A. T. & S. F. is being  
 built with a view to making quick  
 time, regardless of local interests,  
 the Chicago, Fort Scott & Texas is  
 to be built for local and general busi-  
 ness, and to give the southwest an  
 opening to Chicago, or to give  
 Chicago a line to the southwest,  
 which it does not have now since the  
 M. K. & T. has passed into the  
 Missouri Pacific system, a St. Louis  
 road.

Fort Scott is a railroad center of  
 considerable importance, and is in  
 the heart of the very best portion of  
 Kansas, and this new line would, in  
 addition to opening up the southwest  
 to Chicago, provide a section in  
 Missouri with railroad facilities  
 which is now almost without such  
 accommodations.

The names mentioned as directors  
 of the company are a guaranty of  
 good faith of the originators of this  
 proposed line, which would certainly  
 be a valuable and paying one.

Ex-Congressman Weaver, Post Office  
 Department, Washington D. C., consid-  
 ers Red Star Cough Cure a remarkable  
 remedial agent. It contains no danger-  
 ous narcotics and costs but 25 cents.

## Proprietary Medicines.

A visit to Dr. Green's Laboratory  
 at Woodbury, N. J., has consider-  
 ably changed our views, and espe-  
 cially our prejudices in regard to what  
 are generally known as "Standard  
 Patent Medicines." Of course we  
 are getting to that age of life when  
 we are forced to conclude Life itself  
 is a humbug, and naturally distrust  
 anything that has not withstood long  
 and tried experiences. Being a  
 physician I had the curiosity to know  
 how such a sale of two medical pre-  
 parations could be sustained for so  
 many years. The perfect system  
 upon which the business is conduct-  
 ed, and the pharmaceutical arrange-  
 ments for the manufacture of the two  
 recipes with which we were made  
 acquainted, are sufficiently convinc-  
 ing to us that the August Flower,  
 for dyspepsia and liver complaints,  
 and Roschke's German Syrup, for  
 throat and lung troubles, were for  
 the complaints they are recommend-  
 ed, most excellent remedies, and  
 only regret that in much of our  
 practice, medical ethics prevent us  
 from prescribing them without mak-  
 ing the formulas public. When we  
 were shown the great quantity of  
 voluntary letters having been for-  
 warded Dr. Green, from all parts of  
 the country, and from all classes of  
 people, lawyers, ministers and  
 doctors, giving a description of their  
 ailments, testimonials of their cure,  
 etc., I feel like endorsing Dr. Green's  
 suggestion that the Government ac-  
 cept such valuable formulas, and  
 license them for general use by  
 giving protection to the inventor the  
 same as patents generally.—Copied  
 from N. Y. Druggists' Circular of  
 Oct., 1886.

Croup, Whooping cough, sear throat,  
 sudden colds, and the lung troubles pec-  
 uliar to children are easily controlled by  
 promptly administering Ayer's Cherry  
 Pectoral. This remedy is safe to take  
 and certain in its action.

Boston should have an influx of  
 new blood into the journalistic field.  
 The old city boasts of having six  
 editors who are over 80 years old.

"It is worth its weight in gold," is a  
 common expression. But, while the val-  
 ue of gold is easily affected, the worth of  
 Ayer's Sarsaparilla, as a blood purifier,  
 never depreciates. It will eradicate  
 scrofula from the system when every thing  
 else fails.

## SEDALIA BEATEN.

The Capital to Remain as It Is.

Jefferson City, Mo., Jan. 26.—  
 There was quite a breeze in the  
 house this morning over the capital  
 removal and to-night the confidence  
 that beamed on the face of the Se-  
 dalia lobbyists at the Madison house  
 bar at 10 o'clock this morning has  
 dwindled to the glimmer of a de-  
 parted hope. Bright and early the  
 capital removal boomers were in the  
 house, and many a knowing wink  
 and many a pitying smile were ex-  
 changed between them. It was not  
 long before Captain Bridges of Se-  
 dalia called up the resolution to  
 submit a constitutional amendment  
 to remove the capital to Sedalia.  
 Some parliamentary sparring and  
 Kansas City common council elo-  
 quence followed, in which the Se-  
 dalians got the best of it. The  
 boomers evidently had their best foot  
 foremost, and the Jeffersonians were  
 scared. Motions to defer and table  
 were lost with distressing regularity,  
 and finally, after all the filibustering  
 methods had been exhausted, the  
 vote on the resolution was taken,  
 and it was lost by a vote of 64 to 71,  
 and Jefferson City will exist for two  
 years more.

Commissioner of Deeds for all the  
 States, Mr. G. E. Readon, Baltimore,  
 Md., writes that he suffered for a long  
 time with rheumatism which yielded to  
 no treatment until he applied St. Jacobs  
 Oil.

The two series of articles, "How  
 I was Educated" and "Confessions"  
 of members of several religious de-  
 nominations, which have attracted a  
 good deal of attention in the Forum,  
 are to be followed soon by two  
 other series. In one of these will  
 be presented the views of many dif-  
 ferent schools of thought, as the  
 Agnostic, the Evolutionist, the  
 Positivist, as well as those of Chris-  
 tian theology, Protestant and Catho-  
 lic, upon the question, "What is the  
 Object of Life?" In the other,  
 many of the most notable men of  
 the day will contribute instructive  
 and interesting chapters out of the  
 history of their own lives, under the  
 title, "Books That Have Been Use-  
 ful to Me."

Butler ought to have a fire engine  
 and a well organized fire company,  
 and we suggest that the young men  
 and the old take the matter in hand,  
 call a meeting at the court house  
 without delay, and discuss this all-  
 important matter to the city of But-  
 ler. Should a fire break out at the  
 present time what could be done to  
 stay its progress? It is a serious  
 matter when we come to think of it,  
 and it's of very little use to lock the  
 stable after the horse is stolen. We  
 believe the people of this city are in  
 favor of providing some means of  
 protection and all that is necessary  
 is for some of our enterprising citi-  
 zens to take the matter in hand and  
 the end will be accomplished.

## From Maine.

Some years ago my mother's  
 health began to decline; nervous  
 prostration ensued. She had no relish  
 for food and could not sleep, and  
 without strength of course she could  
 not walk without experiencing a  
 great fatigue. We used the ordi-  
 nary remedies, but without any per-  
 manent results. Stimulants would  
 refresh for the time being, but did  
 not build up the system. We heard  
 of Swift's Specific and its tonic  
 effects. We secured several pack-  
 ages of the dry form—the powdered  
 roots and herbs—and after using  
 half dozen packages my mother has  
 regained her health and strength.  
 She is more like her former self than  
 she has been for years. She owes  
 her present vigorous health to Swift's  
 Specific. It is the best tonic I ever  
 heard of.

ORLANDO J. HACKETT.

</
